Técnico Holdings, Inc. Announces Purchase of Bay City Marine

Norfolk, VA – January 27, 2026

Técnico Holdings, Inc, whose companies are employee-owned and a leading provider of ship repair, modernization, and industrial services, is pleased to announce the purchase of Bay City Marine, a well-established marine repair company based in National City, California, supporting commercial and government maritime customers on the West Coast. The transaction was finalized on Tuesday January 27, 2026.

Bay City Marine earned a strong reputation as a provider of structural and mechanical repair services, supporting the U.S. Navy, U.S. Coast Guard, and commercial maritime customers on the West Coast. Its location near Naval Station San Diego and its experienced workforce strengthen Técnico Holding's ability to support fleet readiness and maritime operations in the Pacific region.

The acquisition expands the Técnico family of companies and reinforces presence in the west coast maritime market, complementing existing east coast capabilities. Bay City Marine's technical expertise and operational focus align with Técnico Holding's commitment to quality execution, safety, and customer support.

Bay City Marine will continue operations under its current name, with no disruption to customer support or daily operations.

"This acquisition is a strategic step in expanding our operational capacity and geographic reach," said Mark Oakley, President and Chairman of the Board of Técnico Holdings, Inc. "Bay City Marine has demonstrated consistent performance in support of government and commercial customers. Integrating their capabilities into the Técnico family enhances our ability to deliver reliable, high-quality services across both coasts while maintaining the workforce and operational standards that have driven their success."

Bay City Marine will retain its existing workforce and continue supporting its current customer base. Técnico Holdings plans to support long-term growth through shared resources, best operational practices, and collaboration across its family of companies, while preserving the capabilities and experience that define Bay City Marine.

About Técnico Holdings, Inc.

Técnico Holdings, Inc. is a privately held holding company that provides strategic oversight, governance, and shared services to its operating subsidiaries. Through its

portfolio companies, Técnico Holdings supports a wide range of technical, industrial, and maritime-related services for commercial and government clients.
